

SOS Send Over Shoes!!

If your shoes are too small or if your feet got to big and they can't fit in your old shoes. What are you going to do?

There are some children who would love your old shoes.

To help with the war on poverty and the children affected by it. Shoes are an important first step to making their lives better.

Seya Newspaper Group & SB Heart Station (NPO) volunteer to collect shoes for needy children. We have been working together to send these shoes from Saitama to the Philippines since 2009. These children smile when we send them shoes because many of them can not buy shoes at this time and play barefoot. We hope to bring more smiles to these children with your help. How can you help? Call us, we can arrange a pick up at your home or business. Or drop off at our office. By cooperating we can do this together and deliver smiles.

※ Please help by washing them and tying them together. We like pairs.

Trust Seya Newspaper Group & SB Heart Station to take your precious donations and deliver them to children in the Philippines who can give your shoes a new life.
